Empowering underprivileged children for the future

Progress and challenges

Since arrival we have had full days of blessings and challenges, but we wouldn't have it any other way because we have seen God's hand through it all.

In regards to the church we are helping and teaching English, **Igreja Presbiteriana do Recanto Verde**, to kiddos ages 7-14, we are making progress and teaching based on different themes. So far pictures and videos of these classes are posted on our social media pages which include Facebook and Instagram. If you aren't following, please do so to keep up with our progress. The kiddos are doing great!

Another church we are helping at is called Igreja Batista Renacer and this is where we are now part of the worship team. God gives each one of us gifts and talent to use to enhance his kingdom and it's a blessing to be part of it.

We have had several different meetings already taken place in order to work out the things needed to open up our own preschool daycare. Speaking to personnel at the city council, social workers, child protection services, and relators about putting all these requirements and pieces together. The pickle we are in as of now is that we need to find a place to rent and for the area of need as stated by the city council. As of right now there are only places to buy and a lack of places to rent so we are asking for prayer that what shows up is what God wants us to have. Praying for a God given location is our biggest area of need right now. Please join us.

Donations can be made directly through
